

Agadir / Tuareg

This group tent for 8–10 persons is made of either cotton sail canvas approx. 310 g/m² or Airtex. The entrance is equipped with zippers which can be rolled up. The front door and the back wall are equipped with windows with insect nets and a cover flap. There are ventilation holes under the eave edge. At the ground, the tent is finished with PVC strapping (protection against dirt and water).

Agadir and Tuareg differ only in the material used.
